Their Excellencies, by and with the Advice of his Majesty's Privy Council, have thought fit, in order to prevent the many Inconveniences that may arise to the publick by the Scarcity of Corn and Grain, to ordain That all the Laws relating to Forestalling, Regrading, and Ingrossing of Corn, and particularly the Act of the Fifth and Sixth of Edward the Sixth, strictly observed, and effectually carried into Execution. And to the Intent that all Persons who shall bring the same, may be discovered, do order, that Commissioners and Officers of the Customs at the several Ports of this Kingdom, do take care, when Corn or Grain shall be brought to be entered for Custom, to inform themselves by the best Ways and Means they can, of the Names and Places of the Persons so bringing the same, or making Entry, and of the Places from whence the Corn or Grain is brought, and who is the true Owner of, and whether the same be really the Growth of the Land of the Person exporting, or bought of any Persons, and to give an Account immediately of Particulars to two or more Justices of the Peace of the County, Place or Division, where such Entry is made, to the End such Persons may be apprehended and proceeded against according to Law, in case they do not appear to be within some of the said exceptions of the said Act. And their Excellencies have thought fit, by and with the Advice of his Majesty's Council, to order, that the Custodes Rotulorum of the several Counties and Divisions in England, do recommend it in the strongest Manner to the Justices of the Peace in their respective Counties and Divisions, that they do, in their respective Courts and Jurisdictions, cause the said Act of the Fifth and Sixth of Edward the Sixth, and all other Laws against the Forestalling, Regrading, and Ingrossing of Corn and Grain, to be speedily and effectually carried into Execution, and that they do take

care that no Licence be granted to any Badger, Lader, Kidder, Carrier, or Buyer of Corn or Grain, but according to the Directions of the said Act of the Fifth and Sixth of Edward the Sixth, and other the Acts relating thereto, and that they take care that all Offenders against the said Acts be effectually prosecuted according to Law.

To

To the PUBLICK.

IN the PLAN for the Improvement of the Publick Library Mr. Pancourt has erected in Salisbury, he proposes to sell his present Collection of Books; and immediately after to bring in another, to the Value of a Thousand Guineas at first, besides the daily Addition of New Books: And we propose to do it in such a Way as makes it impossible for a Reading Subscriber to lose any Thing, while there is a Possibility of his having, for every Half Guinea he subscribes, an Article of much greater Value. This is plain to a Demonstration from the Plan with its Explication, in the Hands of his Agents, who deliver out Proposals, and take in Subscriptions.

There you will see, That an Article is a compleat Book, let it consist of one or more Volumes: That the Library he parts with, is to be divided into as many Articles as there are Half Guineas subscribed: That every Half-Guinea entitles the Subscriber to an Article, many of which are worth from One Guinea to Fifteen Guineas, and upwards: That the lowest Article may be exchanged, if the Subscriber pleases, for a Year's Use of the New Library, which will be Half a Guinea per Ann. to every future Subscriber: That Subscribers at the greatest Distances, where there is a Communication with Salisbury by a Weekly Carriage, may have the same Benefit of the Library with those upon the Spot, paying only two or four Shillings extraordinary, according to the Distance, for Carriage, and Damage of Books upon the Road: That every Subscriber has a Catalogue with Rules for his Direction: That while these Rules are observed, the Subscriber is sure of a regular Supply of two Books at a Time, of his own choosing, as often as he pleases to change them, or of full Satisfaction for every Disappointment: That the Whole is to be finish'd at Christmas, or every one's Money is to be return'd again: That any one may transfer his Right to the Use of the New Library to another.

There also you may see the Opinion of the Learned in the Law, about the Manner of disposing of the Old Library, after they have bought it: That should the Subscribers judge it for their common Benefit, they may divide the Articles among themselves by Lot. ' It will not, they tell you, be contrary to any of the Acts against excessive and deceitful Gaming; nor can it be deem'd to fall within any of the Inconveniences, or ill Practices, intended to be prevented thereby.'

N. B. A Subscriber may have Ready Money for any Book he has a Mind to sell again.

The Agents in London are, Mr. Harford at North's Coffee-house; Mrs. Blackwell at Hamlin's Coffee-house near the Royal Exchange; and Mr. Massey, Mercer, at the Three Black Lions in Ludgate-street.

The above is a Sketch of the Design itself, and of the Advantage of Subscribing to the Plan for the Establishment of it.

Whether it deserves the Encouragement of such as are Well-wishers to the Spread of Useful and Entertaining Knowledge, is submitted to your better Judgment, by

Your Humble Servant, &c.

Concerning Gleets and Seminal Weakness of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, which is caus'd by too severe purging for Venereal Injuries, Strains, Pollutio sui, or any other Cause whatsoever; that they are dangerous in their Consequence, and difficult to cure, as is certain, since they exceeding weak the Generative Faculties, infecible the whole Nervous System, often bring on Hectick Heats, a Tabes Doralis, a Consumption of the Back, or an Atrophy or Nervous Caducation which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Intermittent Emotions, excessive Nocturnal Pollutions, or any Disease of the Kidneys, Ureters, or Bladder, the Disease of Incontinency of Urine, or Difficulty of holding the same, would doubtless be glad to meet with a certain speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRACTIVE ELECTUARY, now published for a general use after having for many Years been experienc'd never to fail perfectly curing the most Stubborn Gleets in a few Days, without Difficulty or Trouble; as also other Weaknesses of the Back, Reins, Seminal Vessels, Urinary Passages, which almost instantly cure, and to rights and restoring all those Parts and Passages to natural Tone and pristine Vigour, in a very exact Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRACTIVE ELECTUARY is neither disagreeable to take, nor occasions any uneasiness, but is a wonderful Restorative in all Weaknesses of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an amazing degree, inasmuch that in any Debility of them, one Dose does more than ten of any other Remedy yet found out, all Persons fatigued with Gleets or Seminal Weaknesses, or Weaknesses of the Urinary Vessels, who take it in three Days time find it to be very effectual, that they are most agreeably surprized at it.

When a Medicine will inailably accomplish such a speedy and perfect Cure of such difficult Maladies, as Seminal Weaknesses are, as this Great Remedy directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it. All who ever took it for any of the above-mentioned Diseases have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Value one Pot alone being sufficient in most Cases to answer a Cure, worth ten times as much, and by the special Appointment, is to be had only at Mr. J. Toy-shop, at the Rose and Crown against St. George's Church-Yard in the Strand, ready sealed up, with a Label of Instructions, which whomever carefully reads will easily know, when the Gleet or Weakness he is afflicte'd with succeeds a Venereal Injury, whether all the Malady the Foul Disease is intirely eradicated or not.

Note. Ask only for a 6 s. Pot of Balsamic Electuary.
